

**Stephane NDONG**

Head of Unit, DG Research and Innovation at the European Commission

Stephane started his career as a researcher in the early days of Artificial Intelligence at the University of Aix-Marseille. He worked for the private sector on Industrial and Logistic optimisation for nearly 15 years before joining the European Commission in 2007. He has a great amount of experience on harmonisation of granting practices in EC and corporate IT tools (including the Funding and Tenders opportunity Portal) and he is currently the Head of Unit in DG the Research & Innovation B6 unit, responsible for the dissemination and exploitation of the results funded under the Research and Innovation projects FP7, Horizon 2020 and Horizon Europe Programmes, as well as for the Data and Knowledge Management for the DG.
